European Public Real Estate Association

Monthly Company Chart Book

December 2011

Square de Meeus 23 • B-1000 Brussels • Belgium • www.epra.com

In association with: REIT NAREIT FTSE THE INDEX COMPANY

Introduction

This Monthly Company Chart Book is a reference document that aims to present a quick and complete profile of all the constituents of the FTSE EPRA/NAREIT Global Real Estate Index, through a number of charts:

For each company, **graph 1** presents a comparison of its 12-month rolling performance against:

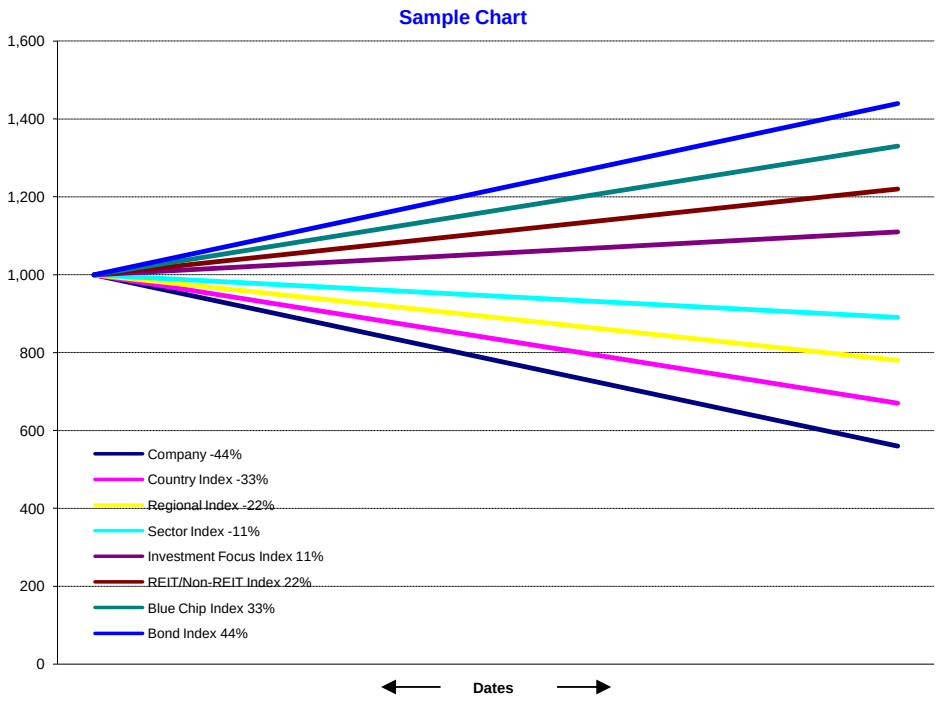
- its respective country index,
- its respective regional index,
- its respective sector index (on a regional basis),
- its respective investment focus index (on a regional basis),
- its respective REIT/Non-REIT index (on a regional basis),
- its respective country blue chip index, and
- its respective bond index (on a regional basis).

All performance charts have been rebased to an index value of 1000 on:
31 December 2010

Graph 2 displays the companies' 12-month dividend yield.

Graph 3 of this Chart Book shows the correlations of each company with the various indices.

Customised versions of these graphs (i.e. performance over a longer/shorter period, different rebase dates, combinations of graphs etc.) are available upon request.



* Companies marked with * throughout this report are tax-transparent.

Correlations

The correlations are calculated over a rolling 36-month period.
For the correlations of a stock against its country, region and global real estate index, the index returns are adjusted to exclude the company return. As such, when a country has only 1 constituent, the correlation between the company and country-index is not calculated, as by definition it leaves a correlation of +1.

Dividend Yields

The dividend market capitalisation (defined as the dividend multiplied by the shares in issue and free float percentage) paid during the last twelve months as a percentage of the investable market capitalisation of the index.
